

Basic L^AT_EX Formatting

Bruno Messias

1 Introduction

Basic Formatting text in L^AT_EX

1.1 Text Formatting

All the things you want to do, and do something should .. emphasis on SOMETIMES.

Bold Formatting is only between the curly braces

Italics Formatting

Underline Formatting

1.2 Paragraph Formatting

New Paragraph automatically indented.

But sometimes you don't wanna to indent to be.

2 Oddities

Strange things I noticed.

2.1 Misquoting

This is how I would normally type 'single' and "double" quotes. Doesn't look odd?

Use the *other* quote key you're probably never used before to make it better.

See my new 'single' and "double"? Ahh it's better.

3 Conclusion

These are just a few of the basic elements in a L^AT_EX file.
